*collection*

Dendro, 2004 yılında dünya yapı sektörüne modern mimarinin ihtiyacı olan ürün ve uygulama yöntemlerini sunan Aspen Yapı ve Zemin A.Ş. tarafından kurulmuştur. Dendro kurulduğu günden bugüne lamine parke üretimindeki makine parkuru ve Ar-Ge yatırımları ile kaliteyi esas alan üretim ve ürün kalitesiyle sektörün dünya çapında önde gelen firmalarından biri haline gelmiştir.

Dendro günümüzde yıllık 1 milyon m<sup>2</sup> lamine parke üretim kapasitesi ve 320.000 m<sup>2</sup>lik hammadde stoku ile bir dünya markasıdır.

Dendro Türkiye genelinde Marmara, İç Anadolu, Ege, Akdeniz ve Çukurova Bölge müdürlükleri ve dünya çapında yüzden fazla bayisi ile birçok bölgede hizmet vermektedir. Dendro Düzce/Gümüşova'da 15.000 m<sup>2</sup> kapalı alan ve 65.000 m<sup>2</sup> açık alanı bulunan fabrikasında üretim yapmaktadır.

Ahşap, insanın yaşaması için gereken iklim koşulları neyse tam da o koşulları talep eden bir malzemedir. Bu nedenle parkenin normal yaşam koşulları için en ideal değerler olan 22 °C - 25 °C sıcaklık ve %50 bağıl nem koşullarında üretilip paketlenmesi gerekmektedir.

Dendro yüzden fazla renk ve çeşitli parke modelleri ile sektörde bu üretim koşullarını sağlayabilen öncü firmadır. Bu alanda ciddi bir ortam ısıtma yatırımı yapan Dendro, ısıtma altyapısını nemlendirme-püskürtme cihazları ile desteklemektedir. Dendro parkelerinin uzun ömürlü kullanıma olanak tanınmasının sırrı üretiminin ilk aşamasından itibaren gösterilen hassasiyet ve özenden kaynaklanmaktadır. Dendro parke üretiminde estetik ve teknolojiyi ön planda tutarak sürdürülebilir kaliteyi sağlamaktadır.

*Dendro has been established in 2004 by Aspen Yapı ve Zemin A.Ş. (Aspen Construction and Flooring Inc.), which provides the products and application methods to the construction industry that are the requirements of the modern architecture. Since the day Dendro has been established, it has become one of the worldwide leading companies of the industry with its machinery for wood flooring production, R&D investments, production based on quality and product quality.*

*Dendro is a worldwide leading brand with its 1 million m<sup>2</sup> wood flooring production capacity per year and 320.000 m<sup>2</sup> raw material.*

*Dendro provides services in many areas with more than 100 agents; throughout worldwide and Turkey with its Marmara, Central Anatolia, Aegean, Mediterranean and Çukurova regional directorates.*

*Dendro makes the production in its factory in Düzce / Gümüşova which has 15.000 m<sup>2</sup> indoor area and 65.000 m<sup>2</sup> outdoor area.*

*Wood is such a material that requires the exact same climate conditions required for human being to survive. Thus, hardwood should be produced and packaged at 22 °C - 25 °C temperature and 50% relative humidity which are the ideal values for the normal living conditions.*

*Dendro is the leading company in the sector that can provide these production conditions with over a hundred colors and very different types of flooring models. Dendro, which has made a serious ambient heating investment, supports the heating infrastructure with humidifying-spraying equipments. The secret of Dendro flooring's long-lasting use is due to the sensitivity and care shown from the first stage of production. Dendro ensures sustainable quality by prioritizing aesthetics and technology in flooring production.*

## İlkelerimiz / Our Principles

- Sınırlı doğal kaynaklar karşısındaki sınırsız tüketim talebini çevreci politikalarla karşılamaya özen gösterir.
- Doğaya ve çevreye minimum hasarla yaklaşmanın son derece önem arz ettiğinin bilincinde hareket ederek; mevcut eko sistemin yapısına müdahale etmeden üretimini gerçekleştirir.
- Dendro Avrupa standartlarında üretim yapan Türkiye'nin tek E1 sertifikalı parke firmasıdır. Üretiminde, emisyonu güvenli yapııştırıcılar kullanarak doğa dostu politikalar izler.
- Bacaların çevre denetçileri tarafından rutin denetlenmesi konusunda titiz davranarak atık yönetiminde de çevre sağlığına uygun hareket eder.

- We approach raw material sourcing with environmentalist policies, keeping in mind that there is limited supply which needs to be balanced against high demand.
- We know that it is extremely important to protect the environment and we endeavour to produce our products in a way that ensures its eco system is protected.
- We know that it is extremely important to protect the environment and so we endeavour to produce our products in a way that ensures protection of the eco-system. endro is the only company in Turkey with an E1 certificate and complies with European standards. Dendro uses environmentally friendly, emission-safe, adhesives in its production.
- Dendro complies with environmental health and waste management principles through meticulous routine inspection of factory chimneys.

- TSE belgesi, ürünlerin Türk Standartları Enstitüsü'nün belirlediği standartlara uygun olduğu anlamına gelmektedir. Bu damgaya sahip olan ürünlerin kalitesi denetlenmiştir ve tüketiciler için güvenlidir.
- TSE certificate means that products comply with the standards set by the Turkish Standards Institute. Products with this seal are quality audited and safe for consumers.

- Türk Standartları Enstitüsü (TSE) tarafından verilen, ürün içeriğindeki 'formaldehit' maddesinin sağlığa zarar vermeyecek düzeyde kullanıldığını ve kanserojen etkinin olmadığını gösteren belgedir.
- It is the document issued by the Turkish Standards Institute (TSE) showing that the 'formaldehyde' in the product is at a safe level which is not harmful to health and has no carcinogenic effect.

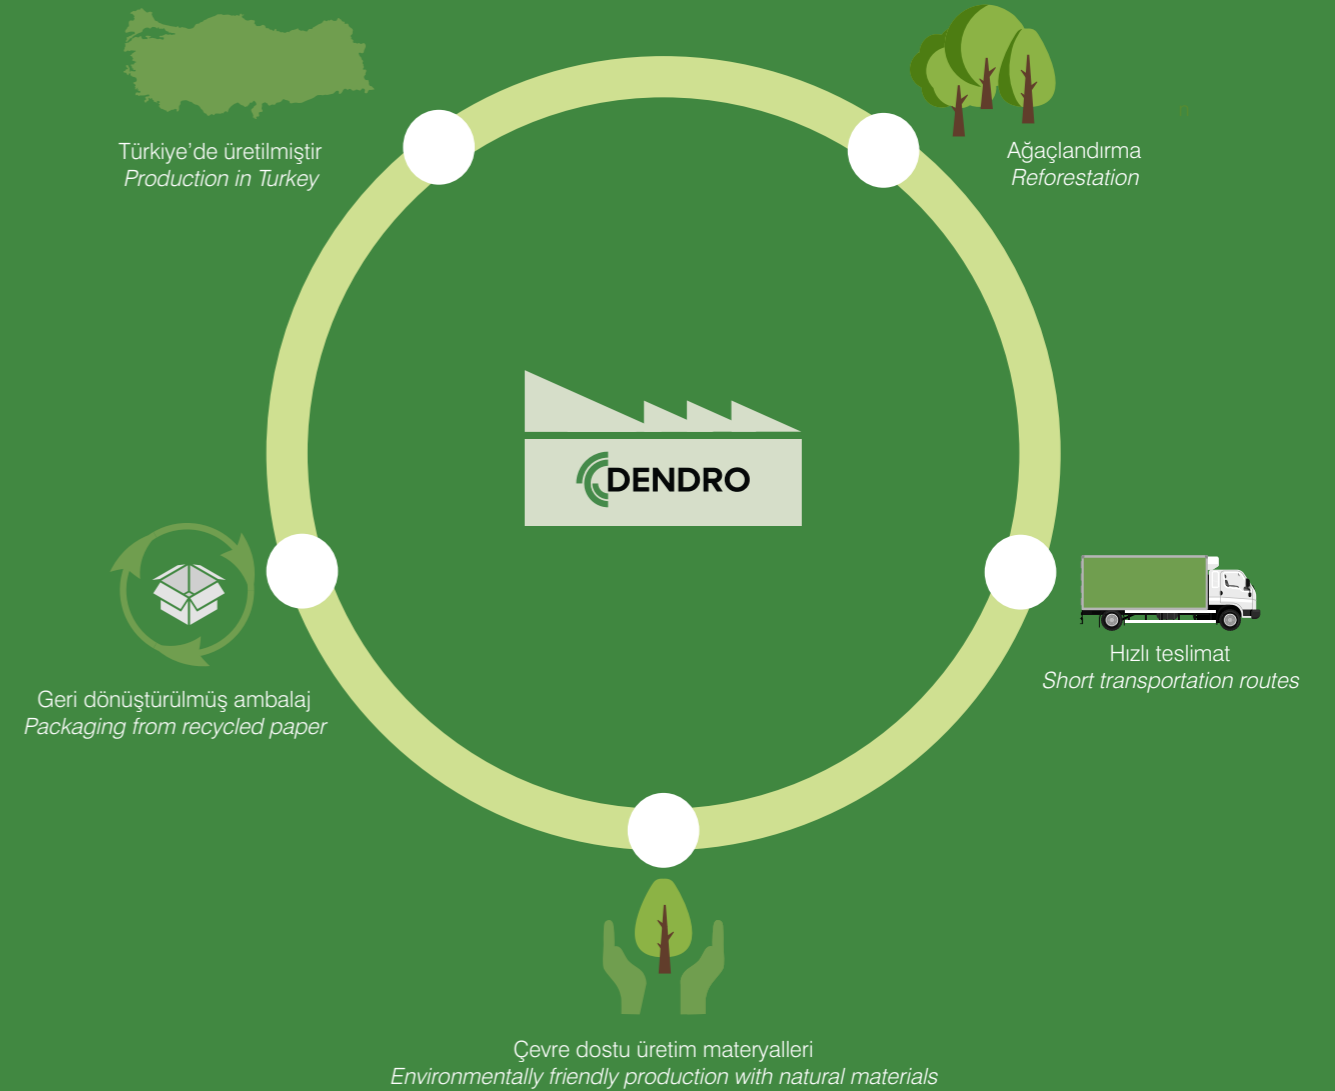

- FEP; Avrupalı parke üreticilerinin, ulusal parke birliklerinin ve endüstri tedarikçilerinin birliğidir. Avrupa parke endüstrisini, ilgili tüm seviyelerde temsil eden en önemli organdır. Dendro; Avrupa Parke Endüstrisi Federasyonu üyesidir.
- FEP is the association of European parquet manufacturers, national parquet associations and suppliers to the industry. It is the most important body representing the European parquet industry at all relevant levels. Dendro is a member of the European Federation of the Parquet Industry.

- CE işareti ürünün Avrupa Birliği Yeni Yaklaşım Direktiflerine ve Avrupa Standartlarına uygun olarak tasarlanıp, üretildiğini simgeler.
- The CE mark symbolizes that the product has been designed and produced in accordance with the European Union New Approach Directives and European Standards.

- Real Wood; Avrupa Parke Endüstrisi Federasyonunun bir girişimidir. FEP'in ana hedeflerinden biri, gerçek ahşabın ekoloji üzerindeki üstün faydalarını iletmek ve sürdürülebilirliğe katkıda bulunmaktır. Bu amaçla, gerçek ahşap zeminleri diğer zemin kaplama çözümlerinden ayırmak için bir ürün etiketi geliştirmiştir. Dendro bu girişimin bir üyesi ve Real Wood etiket sahibidir.
- Real Wood is an initiative of the European Parquet Industry Federation. One of the main goals of FEP is to communicate the outstanding benefits of real wood on ecology and contribute to sustainability. To this end, it has developed a product label to distinguish real wood floors from other flooring solutions. Dendro is a member of this initiative and owns the Real Wood label.
